

13 September 2022

To whom it may concern

It is my pleasure to confirm that Ms XIAOJIA ZHONG has participated in the Robotics, Automation and Internet of Things hosted online by Centre for Professional and Continuing Education, Nanyang Technological University from 28 July to 26 August 2022.

This programme helps university students from China foster professional skills and knowledge in Motion Systems in Robotics, Motion Planning in Robotics, Processes in Industrial Automation, Control in Industrial Automation, Synchronous Communication

Contin

During the programme, this student fully participated in the online courses, demonstrating competencies in the areas assessed. (Please refer to Annex A for more information.) The student was a member of a team who presented in a group presentation applying useful ideas and insights on the future of innovation and used the key concepts learned in the courses.

We wish the student the best for the future.

Yours sincerely

Assoc Prof Xie Ming
School of Mechanical & Aerospace Engineering
Hosted by Centre for Professional and Continuing Education,
Nanyang Technological University

Annex A

Programme Name: Robotics, Automation and Internet of Things

Programme Date: 28 July to 26 August 2022

Hosted Online by: Centre for Professional and Continuing Education, Nanyang Technological University

Ms XIAOJIA ZHONG has successfully completed the online programme which comprised a series of lectures and discussions, as well as a group presentation.

Individual Assessment	Merit
Group Presentation	Distinction
Teamwork	Pass

Overall Grade: Merit

A fail

participant missed to attend all courses, to show enough effort and achievement in both academic and teamwork sessions.

A pass is given when the participant has met the objectives and reached the expected outcomes. The participant has completed the whole programme, submitted projects in due time and showed sufficient understanding of each topic.

A merit is awarded when the participant has fully participated in the course, both in academic and teamwork sessions. The participant has taken part in a team project and has contributed to the presentation of the project.

A distinction is awarded when a participant has taken a leading role in the course, has been interactive and has demonstrated a high capacity to understand and converse in English. This is a special award for outstanding performance and an encouragement to others.

This programme was delivered in English online with 18 academic hours. The workload for 1 Academic Unit (AU) in NTU is equivalent to 13 hours.
